

WELDED-MACHINED PARTS

Because of the technical capability in the field of welding, cladding, heat treatment, machining, Confind manufactures complex parts that require the activities mentioned above. In order to enable a quick orientation in terms of the dimensions of such parts, please find below some information:

Cutting	Carbon steel up to 150mm
	Stainless steel up 40mm
Plate rolling	Up to 40mm thick, up to 3000mm width
Mechanical chamfering	No limit
Welding	manual, MIG-MAG, WIG, submerged arc
	Carbon steel, stainless steel, aluminum, copper
Stress relief	12 x 3 x 3m(L X l xH)
CNC turning	3000 x 800mm
Classic turning	14000 x 400mm
CNC 4 axis milling	6000 x 1500 x 1000mm
CNC classic milling	9000 x 3000 x 1500mm
Deep boring	6000 x 50-250mm
Deep boring	3000 x 12-40mm
